

**FAMILY PRACTICE
RENEWAL PROGRAM**

***Suboxone Treatment of Addiction Advanced Training
Program***

Greetings!

The Family Practice Renewal Program invites you to attend the Suboxone Treatment of Addiction Advanced Training Program. This CME session will be held on **Tuesday, May 16** and **Thursday, May 18, 2023, from 7:00 p.m. to 9:30 p.m.**

Dr. Francisco Acevedo, Dr. Kaitlyn Stanford, and Dr. Bruce Hollett will offer an engaging learning session addressing the following learning objectives:

- *Explain* the basic features of opioid dependency as outlined by the DSM 5.
- *Recognize* the patient with an opioid use disorder (OUD) and *decide* if opioid replacement therapy (ORT) with Buprenorphine is appropriate and safe for that patient
- *Initiate* treatment with Buprenorphine adhering to prescribed induction protocols
- *Watch* for common and uncommon adverse events seen with Buprenorphine/Naloxone and potential drug interactions.
- *Evaluate* the stability of a patient on ORT with Buprenorphine using the clinical interview and urine drug screen (UDS).

While this event is free, we do require pre-registration to ensure pre-session information and materials are available to you in a timely fashion. Please note this session is an on-line learning event using Zoom to ensure the continued health and safety of all participants.

Deadline to register is **Wednesday, May 10, midnight**. Registration is limited to 50 participants.

Registration portal: <https://nlmaforms.formstack.com/forms/suboxone>

Accreditation: *This Group Learning program has been certified by the College of Family Physicians of Canada and the Newfoundland and Labrador Chapter for up to 8 Mainpro+ certified credits following the completion of pre and post assessments.*
