

FAMILY MEDICINE

LECTURE SERIES

MAY 2023

FRIDAYS,
8:00-9:00 A.M. NST

LEARNING OBJECTIVES

Colorectal Cancer and the Family Physician: Exploring the Clinical Pathway from Specimen Submission to Prognosis

- Explain common lower gastrointestinal tract pathology and clinical implications.
- Discuss optimal specimen submission and follow up.
- Interpret cancer summaries and predict typical prognosis based on findings.

Colon Cancer Screening

- Identify patient appropriateness for colorectal cancer screening.
- Explore the harms and benefits of cancer screening and various testing modalities.
- Discuss the management of patients in a screening program.
- Generalize the future possibilities of colorectal cancer screening.

Providing Effective Feedback

- Define effective feedback, including formative and summative types.
- Describe the use of Field Notes in Family Medicine.
- Describe the elements of an effective feedback interaction.
- Recognize the barriers to providing effective feedback.
- Apply evidence-based strategies to provide effective feedback and manage learner response.
