

FAMILY MEDICINE

LECTURE SERIES

JUNE 2023

FRIDAYS,
8:00-9:00 A.M. NST

LEARNING OBJECTIVES

Preparing a Patient for Transfer

- Describe flight physiology in the trauma patient.
- Recognize potential causes for deterioration in transport.
- Discuss how to mitigate the risk of deterioration in transport.

Inpatient Antibiotic Use

- Describe the indications for empirical antimicrobial use in inpatient settings.
- Comprehend the significance of collecting cultures to inform antimicrobial use in inpatient settings.
- Identify strategies for narrowing the antimicrobial spectrum based on culture results.
- Familiarize yourself with the prospective audit and feedback approach for inpatient antimicrobial therapy.
- Recognize the importance of reducing the duration of antimicrobial therapy in inpatient settings.
- Discuss early oral antimicrobial switch strategies for inpatient antimicrobial therapy.

Shared Decision-Making in Primary Care

- Identify opportunities for shared-decision-making.
- Describe new and existing challenges in shared decision-making.
- Identify tools and resources that can support shared decision-making in practice.
