

FAMILY PRACTICE RENEWAL PROGRAM

Buprenorphine/Naloxone (Suboxone) Treatment of Addiction Advanced Training Program

This program will be offered as a 2-session series. To receive Continuing Professional Development credits, you must attend both.

When you register you are automatically registered for both sessions.

Learning Objectives

At conclusion of this program participants will be able to:

- Explain the basic features of opioid dependency as outlined by the DSM 5.
- Recognize the patient with an opioid use disorder (OUD) and decide if opioid replacement therapy (ORT) with Buprenorphine is appropriate and safe for that patient.
- Initiate treatment with Buprenorphine adhering to prescribed induction protocols.
- Watch for common and uncommon adverse events seen with Buprenorphine/Naloxone and potential drug interactions.
- Evaluate the stability of a patient on ORT with Buprenorphine using the clinical interview and urine drug screen (UDS).

REGISTER NOW

While this event is free, we do require pre-registration to ensure pre-session information and materials are available to you in a timely fashion.

Accreditation: This Group Learning program has been certified by the College of Family Physicians of Canada and the Newfoundland and Labrador Chapter for up to 8 Mainpro+ certified credits following the completion of pre and post assessments.

Location: Virtual Offering
