

Family Care Team

Registration is open for the Fall Family Care Team Webinar Series!

The **Fall Webinar Series** is a set of three one-hour webinars designed to support family care team members as they journey towards effective teamwork and seamless collaborative care, however all health care professionals working in NL are welcome and encouraged to attend.

- **October 2, 12-1 pm (NT)- Resources and Supports Update**
Learn about the resources developed for Family Care Teams available through the Resource Hub and other external sources to support collaborative practice in Family Care Teams
- **November 6, 12-1 pm (NT)- Bridging Health and Community - The Role of Family Care Teams in Addressing Social Determinants of Health**
Learn about the social determinants of health (SDOH), the role of Family Care Teams in addressing SDOH, and local social prescribing initiatives that address SDOH
- **December 4, 12-1 pm (NT)-** Topic to be determined and we welcome your thoughts on topics you would like to see addressed. Please share your feedback with us by emailing feedback@familycareteamsnl.ca

Who Should Attend:

This series is perfect for health care professionals, including family physicians, nurse practitioners, registered nurses, social workers, pharmacists, other allied health professionals and Family Care Team staff, who are eager to strengthen their collaborative care skills.
